Dr. Norman Francis: LRA Board, Nov. 11, 2005, Tape 4A (beginning)

“I would encourage you to move this as action by this authority in support and encouragement of the higher education personnel managing this system to work prudently and effectively to accomplish those goals. Without giving details about how they should do it in like, because I think we have left that to the other agencies. But, I would think that this Board would want to go on record as supporting and encouraging the BESE Board of Regents to pursue their goals of prudently and effectively in the interest of improving higher education for all students in the state. That’s the, I think that’s the concept and the principle that we have been using, and I think that will be important. It doesn’t mean that we know now what their decisions are going to be. But we may later, once they make their decisions and they ask us for approval, to say we may have some doubts about this or that. But, by and large, we would honor the expertise of the people who are managing the system and the like. I think that’s important for us. Yes. Any questions? Comments? All those then in favor of supporting the recommendations of the task force on education for improving higher education in the State of Louisiana in the form of the decisions that will be forthcoming. Please signify by saying Aye. Opposed? Motion’s carried.”
